PATHFINDER

Antonio Garcia

PART A — STUDENT PREP

complete at least 24 hours before your checkpoint and send to your pathfinder

SPRINT STATUS

On track

At risk

In crisis

TEAM MEMBER

WHAT I CONTRIBUTED THIS SPRINT

Yunchao He

Coordinated job data integration and continued refining the algorithm.

Zetong Li

Led user testing and updated the prototype based on feedback.

Dan Ma

Organized user feedback collection and supported feature validation.

Lufei Liu

Refined the community post-sharing feature based on user input.

Rongsheng Zhu

Integrated interview question categories and ensured they met user need

Wenzheng Huang

Refined content architecture for job and interview data.

Muyang Jiang

Designed testing interface for real-time feedback.

Name

ONE SENTENCE — WHY

We finalized the prototype, conducted user tests, and started refining the features based on feedback

CURRENT BLOCKER

name the specific problem, not "it's hard"

Our main blocker is ensuring the consistency of job and interview data across different job categories and regions. The integration of data from multiple sources has been more challenging than anticipated, which is slowing down progress.

OUR ONE QUESTION FOR THE PATHFINDER

How can we ensure that the job and interview data we collect is comprehensive and reliable enough to validate the prototype's core features? Are there any specific best practices for data validation in this context?
